

-9-

Design a Comenius logo for a T-shirt.

Create a new flag with 9 fields out of cardboard or construction paper or on a piece of cloth (size: 12 X 9 cm). Use a black marker and wax crayons to draw the flags of the 7 partner countries into the fields and the last 2 fields are for the European flag and a Comenius Logo with the title of the game.

Jewelry design

Use a blank sheet of paper to draw a "Swatch"-watch and create a new design for it by painting it with the colors of a partner country and its theme in the game.

Use colorful crayons or markers!

Every person in the group prints the image of a sight of one of the partner countries. Now divide the image into three parts and cut them out. Throw away the middle part of the picture and glue the two remaining parts on a white sheet. Use your imagination and try to join the two parts by redesigning the part you have thrown away.
